Author's Notes

A BRIEF HISTORY OF POLITICAL CAMPAIGN ITEMS

Presidential political campaign items have been in use since the early 1800's. The early items include metal tokens, clothing buttons, cloth flags, and snuff boxes. Also china plates, walking canes, paper lanterns and drinking glasses were just a few of the more common items introduced into these early campaigns.

Beginning with the 1856 presidential campaigns and the advent of the advancement in photography, ferrotype and cardboard photos, both attached to metal pin backs with the images of the candidates were introduced into widespread use. These were used in all national presidential campaigns until 1896 with the introduction of the modern day celluloid campaign button.

Abraham Lincoln & Hannibal Hamlin
1860 President & VP ferrotype - Republican Party

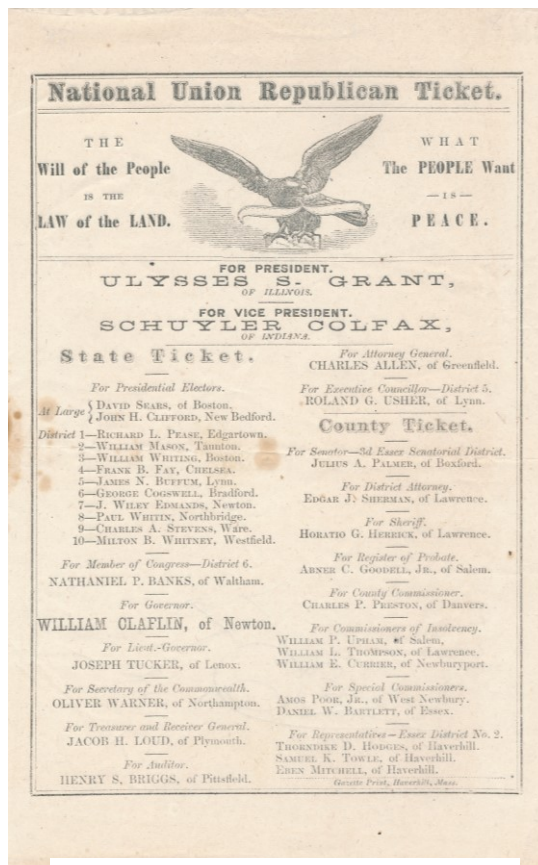

Note that all of the above items described were used only in presidential campaigns. Lesser offices such as governor, US Congress, mayor, etc. did not see any use of this type material. The first use of material to promote lower offices were paper ballots beginning around 1840. Paper ballots were usually issued by the party listing a slate of candidates on inexpensive paper for the voter to take with them to the voting booth and deposit therein casting their vote.

These were in wide distribution for presidential campaigns as early as 1824 and in some instances in later years would include governor, lieutenant governor and various other offices. As time went on paper ballots were produced for a slate of candidates by the party in individual states during non-presidential years.

Around this same period broadsides were introduced in the campaigns. These were the early forms of what later would become the campaign poster. These early broadsides were usually printed on newsprint or very inexpensive paper. They were widely distributed as the cost was minimal and pasted on the sides of buildings, nailed to trees, and generally placed wherever they could draw the attention of the voting public to the candidate.

Rutherford B. Hayes & William A. Wheeler

Republican Party

Ulysses S. Grant & Schuler Colfax
1868 President & VP Mass. paper
ballot – Republican Party

For the period from 1840 till 1895 one of the most popular forms of campaign items was the political ribbon. The early ribbons were produced for presidential campaigns but beginning around 1860 these ribbons could also include candidates running for governor on the same ribbon that promoted the presidential and vice presidential nominees of a given party. Ribbons also began appearing promoting only the gubernatorial candidate and in some instances the lieutenant governor. These early textiles could be very plain or in many instances include images of the candidate along with patriotic symbols of the country, political party and various other graphics from their state or region.

The first ribbons were almost all silk and printed in black and white. As time went on color was introduced in not only the wording and graphics but the ribbons themselves were produced in a variety of colors. Again with the advent of the campaign button in 1895 ribbons began seeing their decline. By the 1920's very few campaign ribbons were being produced.

Millard Fillmore & Andrew Donelson
1856 President & VP silk ribbon –
American (Know-Nothing) Party

Beginning in 1900 a new form of campaign item was introduced to the voting public: the political postcard. Postcards had been in use in America as early as 1873 but became very popular in 1898. Until that year the Federal Post Office was the only establishment allowed to print postcards. Once this restriction was lifted a huge outpouring of commercial postcards flooded the market. Postcards became the main form of communication between the masses as the telephone was in its infancy and just beginning to have widespread use.

William Jennings Bryan & John Kern
1908 President & VP postcard - Democratic Party

This postcard craze continued until after World War I but resulted in the largest output of political postcards and has not been duplicated since. The presidential political campaigns of 1900 through 1916 are the Golden Age for postcard production. Postcards promoting candidates of lower offices did not start to appear until around 1908. Even today most candidates running for president, governor or US Senate produce postcards and still use them as a campaign tool to reach prospective voters.

The modern day celluloid campaign button had its origins in the 1895 gubernatorial campaigns of Ohio, New Jersey, Iowa, Kentucky, Maryland and Massachusetts. These celluloid buttons were produced by Whitehead & Hoag Co of Newark, New Jersey which went on to become the predominant manufacturer of campaign buttons during this early era. The following year, 1896, was a presidential campaign year which witnessed the introduction of celluloid buttons in the campaigns of Republican William McKinley and Democrat William Jennings Bryan. Due to the inexpensive cost to produce these buttons great quantities were manufactured and introduced during this campaign.

By 1920 a new even more inexpensive style of button was introduced; the lithograph tin button. These buttons are stamped and shaped by a die from one large sheet of tin reflecting multiple copies of the same image. In essence it is paint applied to tin with no covering. Due to this process the paint is quite susceptible to scratching in shipping or handling and cannot sustain wear as easily as celluloid buttons. Also due to the production requirements a minimal order of 10,000 buttons is required therein limiting the number of orders placed by this process. Thus the celluloid button of 1895 is still the most popular type in use some 100 plus years later after their introduction.

Governor Items

CALIFORNIA GOVERNOR POLITICAL CAMPAIGN ITEMS

The images in this reference are chronological by campaign date beginning with the John G. Downey paper ballot of 1863 through the Gray Davis campaign of 1998. All items are numbered and shown as well with their descriptions in the alphabetical index at the end of the book. The index reflects the candidate's last name, first name, party affiliation, year of election as well as the election result. W = won, GE = ran in the general election, P = ran in the primary, H = hopeful, and C = participated in party convention.

California is one of the most prolific states when it comes to political campaign items. This California governor reference features over 543 items. In light of the current Democratic Party dominance in the state, California has a history of being very much a two party state. Over its' 180 year history, California has had 22 Republican, 16 Democrat, and 2 third-party governors.

Almost every type of campaign item is reflected in this reference. Ribbons, buttons both celluloid and lithograph, postcards, card stock hangouts, booklets, brochures, window stickers, posters, blotters, paper ballots, flashers, bumper stickers, metal lapel pins, press photos, ribbon sashes, celluloid mirrors, palm cards, envelopes, flags, newsletters, stamps, phonograph records, etc.

Ralston's Qualifications for The Governorship

Set down briefly, the qualifications which W. C. Ralston brings with him in coming before the people as a candidate for Governor, are the following:

1. He is a business man and a Republican.
2. He has worked underground as a miner, shift-boss, foreman and superintendent.
3. He stands for the legitimate expansion of business, and for the fostering and protection of California's industries.
4. He believes that the tax rate has increased out of all proportion to the benefits derived therefrom, and it will be his aim to bring about a reduction of the tax rate to a figure compatible with the State's progress.
5. His ability to administer large business affairs is proven by his record as Assistant Treasurer of the United States, and by his work in the development and equipment of large mining properties.
6. He has been a leading member of both houses of the Legislature, and is therefore thoroughly familiar with the intricate details of the State's business affairs.
7. In the interest of the miners he fought the railroad political machine a quarter of a century before the present executive was known to public life in California. And in those days it meant something to oppose the greatest political factor this State has ever known.
8. Referring again to the present administration, which claims credit for such legislation as Women's Suffrage and the State Highway system, it is a matter of history that William C. Ralston was fighting, almost single-handed, for the enactment of laws granting women the vote and providing for a system of State highways more than a decade ago.
9. He is liberal in his views, broad-minded and independent, and acknowledges allegiance to no faction or class. He pledges himself, if elected Governor, to administer the State's affairs in a businesslike manner.
10. He is bound by no promises and will exact none. He asks the men and women of California to vote for him on his merits and his fitness for the office of Governor of this State.

There is no element of doubt in C. C. Young's candidacy; no question whether or not he is the man for the job. He knows his responsibility of the office. California knows him; knows his remarkable ability as a business executive, his capacity for achieving economy of expenditure, his capacity for achieving efficiency in government, his honesty and fairness and his wholehearted devotion to the highest governmental principles.

Thousands are supporting him, believing his continued in office will be for California's greatest good. This belief is based upon his accomplishments as Governor, among them being:

His systematic organization of the State's affairs on a business basis.

His economies that have been instrumental in building up a surplus of \$29,000,000 in the State Treasury.

His enlistment of President Hoover's aid in solving California's pressing water problems.

The development of the State's unexcelled highway system.

The great strides in humanitarian legislation during his regime.

CA-113A

Gov. Richardson's Record Is One of Lack of Interest in and Unfriendliness to Boulder Canyon Project

Not only was the Metropolitan Water District Bill defeated in an administration Assembly by legislators friendly to Governor Richardson, but the Boulder Canyon project has been conspicuously unrepresented at Washington during the long and hard struggle there to secure legislation, but:

1. Governor Richardson has apparently gone out of his way to appoint to important state positions editors hostile to the Boulder Canyon development. For instance, John E. King, of the Boulder Canyon project, was appointed by him as State Printer. J. R. Gabbert, of Riverside, not less violent in his opposition, has been named by him as Real Estate Commissioner.

2. Last December, while the fight for legislation authorizing the Boulder Canyon project was being waged in Congress, the Boulder Canyon project was being discussed in the State Printing Office, in which every obstacle in the way of the legislation was emphasized and stressed; practically every opponent of the project was lauded and its advocates vilified and sneered at. The document carried this conclusion:

"It is my judgment that flood protection works should be planned and constructed at an early date by the Federal Government, and let the debaters proceed with discussion as to the best program for the fuller utilization of the stream."

3. The same simple language, was for a low flood control dam. The low flood control scheme of development is well understood in Southern California. It is the counter plan upon which enemies of the Boulder Canyon project have centered. It is the precise type of development desired by Mr. Chandler and by private power interests. Chandler desires to locate it in the Colorado River. All Californians have a power interest desire it because it would tend to result in a monopolization by them of the tremendous power resources of the Colorado. THE PREPARATION, ISSUANCE AND DISTRIBUTION OF THIS FOUNDING DOCUMENT HAS NEVER BEEN DISCLOSED TO THE GOVERNOR, but he now says it was done under his direction.

3. In harmony with his record of indifference and hostility Governor Richardson in a lengthy statement announcing his candidacy for re-election made no reference whatsoever to the Colorado River development. Since the time of his announcement of his candidacy, he has been forced to decline in favor of development, but has done so in such vague terms as to mean nothing.

Especially with the Chandler-Knowland-Hearst-Hoover Puppet, Earl Warren, who is politically so unscrupulous as to pose as "non-partisan," "non-political" and "non-most-any-old-thing" to swipe votes from the Democratic party. It might be added that as a hope-for-anything-good-for-California, Warren is also non-est (not is), and as for regard for political honesty, he has non! And don't forget this: HISTORY HAS PROVED ABRAHAM LINCOLN WAS RIGHT WHEN HE WARNED THAT IT IS DANGEROUS TO CHANGE HORSES IN MID-STREAM.

California Americans! Be too wise to fall for any of this "con" about "non" Warren is perpetrating! It's simply nothing that's NOT!

THE WOMEN OF CALIFORNIA AND THE WAR

A PERSONAL MESSAGE FROM

EARL WARREN
Non-Partisan Candidate

FOR

GOVERNOR

TO

EVERY WOMAN OF HIS
☆ NATIVE STATE ☆

To California women, women whose deepest interest lies in their own children, their own homes — the family that occupies the Governor's House at Sacramento is important.

Here is the family of the man that hundreds of thousands of Californians want at the helm of State government during the war crisis and in the troubled post-war times to come. They are: first row—Robert and Nina; second row—Virginia, Dorothy, Earl, Jr.; third row—James, Mrs. Warren and Earl Warren.

Your Candidate For Governor
BILL KNOWLAND

... shown here with his wife, Helen.

For Integrity, Leadership, Ability, Courage,
you can't beat Bill.

KNOWLAND FOR GOVERNOR

CA-209

CA-209A

Dear Friend:

I never buy a cat in a bag, therefore I am against the "Package Deal". When I vote I select my candidate according to his qualifications and not merely because he happens to be a Democrat or a Republican. I want a man that is really qualified.

Let's take the race for Lieutenant Governor as an example. There are two men running for this office. First, we have John F. Shelley of San Francisco. Mr. Shelley was a member of the "Package Deal" and is endorsed by the CIO-PAC.

Second, we have Superior Judge Goodwin J. Knight, a resident of Los Angeles for forty-seven years. He was a successful practicing attorney for fifteen years and a Superior Court Judge for eleven years. Judge Knight is NOT a labor boss but his record proves that he has always given labor a square deal. Even his opponent cannot deny this fact.

Judge Knight is a World War Veteran—his opponent is NOT—need I say more?

Won't you join me and vote for Judge Goodwin J. Knight for Lieutenant Governor?

Yours very truly,

55

CA-210

Fellow Californian:

I am taking the liberty of asking you to join me and the millions of people in our state who want Bill Knowland for our governor.

A state as big as ours needs its biggest man for its biggest job. Bill Knowland, for 25 years in the State Legislature and in the United States Senate, has demonstrated his great capacity for leadership, his integrity and his capacity to get things done for California.

Sincerely,

CA-215

That's why most of us came here from other places. And over the past seven years, Governor Pat Brown has led the effort to make California an even better place to live, to work and to raise our children.

The opposition can shout itself hoarse, but the record is clear. In no other state are children guaranteed a tuition-free college or university education. In New York, Pennsylvania and most other states, you pay a costly toll to drive on the freeways, but not in California, even though we have more miles of freeway than any other state.

Whether it's new beaches and parks, new water and conservation projects, new classrooms or new laws to keep our streets safe, California is far ahead of the rest of the country.

OUR ECONOMY HAS NEVER BEEN IN BETTER SHAPE!

More people working and earning bigger paychecks than ever before in our history. Business and agricultural earnings are at an all-time high. We continue to attract more new industries—and payrolls—than any other state.

And yet, despite the demands of our booming population, we have held the tax line. California leads the nation in personal income, but residents of 29 other states pay a higher share of their earnings for state services.

There has been no major tax increase since 1959 under Governor Brown and there will be none this year.

Let's face it, we have the most effective Governor in America. Let's keep him working for us!

FOR GOVERNOR

JESS UNRUH means progress for California. Progress in employment, progress in protecting workers' rights and progress in assuring our children all the education they can use. Recognized internationally as an authority on state government, he will bring order, efficiency and purpose to Sacramento. As Assembly Speaker for more than eight years, Jess Unruh has demonstrated a capacity for the responsible leadership which California badly needs. He simply cannot afford four more years of soaring unemployment, runaway inflation and a Governor's private war with university students. Let's give Jess Unruh the biggest possible vote on June 2.

John Hospers Governor

John Hospers is currently professor of philosophy at the University of Southern California. Raised in Iowa, he graduated from the State University of Iowa and his Doctorate in Philosophy from Columbia University. He has taught philosophy at Brooklyn College, the University of Minnesota, and the University of Southern California.

He is the author of six books, including two internationally-known philosophy textbooks. His book, "Libertarianism: A Political Philosophy Whose Time Has Come," was published in 1971. Dr. Hospers has published more than 50 articles in various magazines and journals. He has also been a frequent speaker at national and international conferences. The party is the ballot in Utah and expects to have ballot status in 10 states by the end of the November elections. We would like California to join this list and make it eleven states.

California is the most restrictive state in the nation in qualifying new parties. To get the Libertarian Party on the ballot will require 8% of the vote. This means about 125,000 votes. With this number needed, individual votes — your vote — becomes therefore significant. The procedure for doing a write-in vote varies throughout the state and therefore we cannot give instructions. To write in a name, you must first get the name of the party on the ballot. In all cases, however, a write-in requires that you write both the candidate's name and the office, e.g. John Hospers Governor.

Other Libertarian candidates and the offices are: William Siesel, Lieutenant Governor; William White, Senator; David Bergland, Attorney General; Veronica Meidus, Secretary of State; Lloyd Taylor, State Treasurer; Kathleen White, State Controller.

THE CITIZEN'S CANDIDATE FOR GOVERNOR
Selected the "Nation's Outstanding Consumer Advocate of 1972," chosen the greatest President in business history, a man of many talents, a brilliant businessman, an expert on economics, and a magna cum laude graduate in economics. A problem solver NOT a "political promisor".

CONFUSED ABOUT THE GOVERNOR'S RACE?

Don't feel alone—so is everyone else! Everyone, that is, except for the citizens for HERB HAFIF.

We KNOW we have a great candidate. The National Consumer Advocate of the Year, Herb Hafif hasn't accepted this special interest money as have Brown, Alioto and Morretti. Herb Hafif is free and clear—nobody owns this man, nobody but THE PEOPLE.

See why Herb Hafif, even in the year of Watergate, can still inspire the people.

Ahead of us lies the opportunity to build a better future—a future where new ideas are welcome and where initiative and achievement produce rewards in the way we work and live."

This will not happen by itself. It will take concentrated effort by leaders at all levels of government. It will take an openness and the desire to search for solutions. And, it will take a commitment—a commitment to change if necessary, but more importantly, a commitment to make things better for our children and our children's children."

US Senate Items

CALIFORNIA US SENATE POLITICAL CAMPAIGN ITEMS

The images in this reference are chronological by campaign date beginning with the Thomas R. Bard winning campaign of 1994. All items are numbered and shown with their descriptions in the alphabetical index at the end of the book. The index reflects the candidates' last name, first name, party affiliation, year of election as well as the election result. W = won, GE = ran in general election, P = ran in the primary, H = hopeful, and SE = ran in the special election.

United States Senators prior to the 17th Amendment to the Constitution of 1912 were elected by state legislators. In most states it took approval by both the House and Senate to elect a U.S. Senator. The 17th Amendment was ratified in 1913 and changed this method to provide for popular elections by the people. Thus U.S. Senators would be elected in the same manner as the U.S. Congress has been since 1789.

California's first U.S. Senate campaign by popular election was in 1914. Four candidates, Republican Joseph Knowland, Democrat James D. Phelan, Socialist Ernest Untermann, and Progressive Francis J. Heney competed with Phelan winning the first popular election.

Almost every type of campaign item is reflected in this reference. Ribbons, buttons both celluloid and lithographs, postcards, cardstock handouts, booklets, brochures, metal lapel pins, pamphlets, stickers, posters, bumper stickers, etc.

These candidates are LOYAL Hoover men, and will faithfully support his administration, and thus serve California's interests. Southern California with more than half the population of the State, will give its support to the Hoover-Curtis ticket. This ticket will give Southern California a Senator—a man who has already served six years in Congress. Jordan, Chancellor Emeritus of Stanford University, has endorsed Charles H. Randall in a letter dated Aug. 6, 1923, as follows: "I certainly favor your candidacy for Senator and will do what I can to support it."

LT. GOVERNOR FRED HOUSER

Dear Friend: SHERIDAN DOWNEY WAS ABSENT from his seat on 52% of U. S. Senate roll calls during the wartime years of 1942 and 1943, when legislation vitally affecting the welfare of our sons and daughters in the armed services and the security of our nation was passed or rejected. The printed record of votes cast in the U. S. Senate does not lie.

Final victory is yet to be won and we are facing a critical post-war period. FRED HOUSER, California's able and dynamic Lieutenant-Governor, has demonstrated that he knows how to give the people of our State the kind of representation they need and want in the United States Senate.

Let's replace absenteeism with real representation by electing FRED HOUSER U. S. Senator on November 7th.

Sincerely yours,

76

Pierre Salinger will be effective for California the first day he takes office. He is the only candidate qualified by experience. Everyone knows where Salinger stands. Under Presidents Kennedy and Johnson he fought for the programs of the New Frontier — the drive for education, housing and civil rights legislation — the great forward move of American foreign policy. Salinger has the know-how to translate California needs into Washington action.

Addendum – Additional Items

An addendum was never planned for this book. The entire book draft was given to Sarah O’Pella, my go to computer whiz, to work up into a finalized book block and submit to the printer.

About a month later I received a phone call for Pat Lenington, my friend and fellow collector for over fifty years. He had purchased a California collection and wanted me to price it for him to sell. He emailed me images which revealed seven older items that were not included in this book and that I had never seen. These definitely needed to be included but would call for an addendum at this late date.

The biennial American Political Items Collectors (APIC) National Convention had been postponed in 2020 due to the COVID virus and was scheduled a few weeks after I’d given Sarah the one page addendum to add to the book.

I ran into a long-time California collector, Steven Ominsky, at the convention and related my story about finding the scarce California material which was to be included in my upcoming California book. I was stunned when he told me he had been given first offering of the collection and had acquired a large group of needed items for his collection. Being a seasoned and long-time California collector that he was, I knew he must have acquired some very rare material.

I convinced him to send me color copies of his collection and especially of his recent acquisitions with the idea of expanding the addendum. There were a total of fifty items from his collection that were added to the addendum, the first eight pages. These are all grouped like the main book content in election year order. The last page of the addendum was the original one page addendum featuring another seven items plus a tenth page for a late arrival.

As any collector of state political items is aware, there are always items you don’t have in your own collection or are not even aware exist. With this additional material that Steven provided he has made this a much more complete reference. A very large thank you goes to him for all his help.

A reference work of this scope could not be produced without the assistance of many people.

Special recognition goes to fellow California collector and long-time friend Jim Weling. A true historian of not only California political memorabilia but the entire United States, he has assembled one of the finest collections of governor and U.S. Senate items in the hobby. Many of the early items shown in this publication are from his extensive collection.

Also contributing to this publication was Steven Ominsky, another long-time California collector who provided images of earlier scarce items.

This is the fifth state publication in this series with Illinois, Texas, Pennsylvania, and Massachusetts having been published earlier. Helping me navigate the publishing world have been two Texas sisters, Sarah O’Pella and Mary O’Pella. They have been with me from the beginning with Sarah’s computer skills formatting all the pages and sending the completed book to the printer. Mary is the artist and designed the front and back covers as well as some of the layout. It has been a real treat working with both of them and a special thanks for all their input.

This book would not have been possible to publish without the assistance of the Frisco Public Library and their printing group the Trail Blazer Press. Adam Lamprecht, senior librarian, and Amy Gideon with the Trail Blazer Press group were a pleasure to work with to bring all of these books to their final publication.

About the Author

David Quintin is a lifetime collector of political campaign memorabilia. His focus for the last forty-five years has been political items used in the campaigns for United States Senators and governors for all fifty states.

He is a member of the American Political Items Collectors, APIC, and currently the Locals editor of the organizations publication, *The Keynoter*.

Information for the APIC is available on the organizations website at APIC.US. David Quintin can be reached at DQTEXAS@AOL.COM
