### A BRIEF HISTORY OF POLITICAL CAMPAIGN ITEMS

Presidential political campaign items have been in use since the early 1800's. The early items include metal tokens, clothing buttons, cloth flags, and snuff boxes. Also china plates, walking canes, paper lanterns and drinking glasses were just a few of the more common items introduced into these early campaigns.

Beginning with the 1856 presidential campaigns and the advent of the advancement in photography, ferrotype and cardboard photos, both attached to metal pin backs with the images of the candidates were introduced into widespread use. These were used in all national presidential campaigns until 1896 with the introduction of the modern day celluloid campaign button.

Abraham Lincoln & Hannibal Hamlin 1860 President & VP ferrotype - Republican Party

Note that all of the above items described were used only in presidential campaigns. Lesser offices such as governor, US Congress, mayor, etc. did not see any use of this type material. The first use of material to promote lower offices were paper ballots beginning around 1840. Paper ballots were usually issued by the party listing a slate of candidates on inexpensive paper for the voter to take with them to the voting booth and deposit therein casting their vote. These were in wide distribution for presidential campaigns as early as 1824 and in some instances in later years would include governor, lieutenant governor and various other offices. As time went on paper ballots were produced for a slate of candidates by the party in individual states during non-presidential years.

Around this same period broadsides were introduced in the campaigns. These were the early forms of what later would become the campaign poster. These early broadsides were usually printed on newsprint or very inexpensive paper. They were widely distributed as the cost was minimal and pasted on the sides of buildings, nailed to trees, and generally placed wherever they could draw the attention of the voting public to the candidate.

> Ulysses S. Grant & Schuler Colfax 1868 President & VP Mass. paper ballot – Republican Party

For the period from 1840 till 1895 one of the most popular forms of campaign items was the political ribbon. The early ribbons were produced for presidential campaigns but beginning around 1860 these ribbons could also include candidates running for governor on the same ribbon that promoted the presidential and vice presidential nominees of a given party. Ribbons also began appearing promoting only the gubernatorial candidate and in some instances the lieutenant governor. These early textiles could be very plain or in many instances include images of the candidate along with patriotic symbols of the country, political party and various other graphics from their state or region.

The first ribbons were almost all silk and printed in black and white. As time went on color was introduced in not only the wording and graphics but the ribbons themselves were produced in a variety of colors. Again with the advent of the campaign button in 1895 ribbons began seeing their decline. By the 1920's very few campaign ribbons were being produced.

Millard Fillmore & Andrew Donelson 1856 President & VP silk ribbon – American (Know-Nothing) Party Beginning in 1900 a new form of campaign item was introduced to the voting public: the political postcard. Postcards had been in use in America as early as 1873 but became very popular in 1898. Until that year the Federal Post Office was the only establishment allowed to print postcards. Once this restriction was lifted a huge outpouring of commercial postcards flooded the market. Postcards became the main form of communication between the masses as the telephone was in its infancy and just beginning to have widespread use.

William Jennings Bryan & John Kern 1908 President & VP postcard - Democratic Party

This postcard craze continued until after World War I but resulted in the largest output of political postcards and has not been duplicated since. The presidential political campaigns of 1900 through 1916 are the Golden Age for postcard production. Postcards promoting candidates of lower offices did not start to appear until around 1908. Even today most candidates running for president, governor or US Senate produce postcards and still use them as a campaign tool to reach prospective voters. The modern day celluloid campaign button had its origins in the 1895 gubernatorial campaigns of Ohio, New Jersey, Iowa, Kentucky, Maryland and Massachusetts. These celluloid buttons were produced by Whitehead & Hoag Co of Newark, New Jersey which went on to become the predominant manufacturer of campaign buttons during this early era. The following year, 1896, was a presidential campaign year which witnessed the introduction of celluloid buttons in the campaigns of Republican William McKinley and Democrat William Jennings Bryan. Due to the inexpensive cost to produce these buttons great quantities were manufactured and introduced during this campaign.

By 1920 a new even more inexpensive style of button was introduced; the lithograph tin button. These buttons are stamped and shaped by a die from one large sheet of tin reflecting multiple copies of the same image. In essence it is paint applied to tin with no covering. Due to this process the paint is quite susceptible to scratching in shipping or handling and cannot sustain wear as easily as celluloid buttons. Also due to the production requirements a minimal order of 10,000 buttons is required therein limiting the number of orders placed by this process. Thus the celluloid button of 1895 is still the most popular type in use some 100 plus years later after their introduction.

Alton B. Parker & Henry G. Davis 1904 President & VP celluloid button – Democratic Party

Eugene Debs & Emil Seidel 1912 President & VP celluloid button – Socialist Party

Jimmy Carter 1976 President celluloid button – Democratic Party

### PENNSYLVANIA GOVERNOR POLITICAL CAMPAIGN ITEMS

The images in this reference are chronological by campaign date. Beginning with the Joseph Ritner inaugural ribbon of 1835 through the Lynn Yeakel campaign of 1994. All items are numbered and are shown as well with their descriptions in the alphabetical index at the end of the book. The index reflects the candidate's last name, first name, party affiliation, year of the election, as well as the election result. W = won, GE = ran in the general election, P = ran in the primary, H = hopeful, and C = participated in the party convention.

Pennsylvania is on the most prolific states when it comes to political campaign items. This Pennsylvania governor reference features over 1,100 items. A heavy emphasis is reflected in the early campaign ribbons that were produced; over 200 through the 1938 campaign of Arthur H. James. To put that into perspective, most of the other states produced less than 20 ribbons for this same period and some less than 10. The number of early coattail ribbons, beginning in 1840 to the 1886 Blaine – Beaver campaign, is quite remarkable.

Almost every type of campaign item is reflected in this reference. Ribbons, buttons (both celluloid and lithograph), postcards, card stock handouts, booklets brochures, window stickers, posters, blotters, cloth cap, flashers, bumper stickers, phonograph records, door hangers, match books, medals, metal signs, stamps, palm cards, etc.

## PENNSYLVANIA US SENATE POLITICAL CAMPAIGN ITEMS

The images in this reference are chronological by campaign date. Beginning with the Matthew S. Quay winning campaign of 1887 through the Pat Toomey campaign of 2010. All items are numbered and are show as well with their descriptions in the alphabetical index at the end of the book. The index reflects the candidate's last name, first name, party affiliation, year of election, as well as the election result. W = won, GE = ran in the general election, P = ran in the primary, H = hopeful, LE = legislative election, and SE = ran in special election.

United States Senators prior to the 17<sup>th</sup> Amendment to the Constitution of 1912 were elected by state legislators. In most states, it took passage by both the House and Senate to elect a U.S. Senator.

The 17<sup>th</sup> Amendment was ratified in 1913 and changed this method to provide for popular elections by the people. Thus U.S. Senators would be elected in the same manner as the U.S> Congress had been since 1789.

Pennsylvania's first U.S. Senate campaign by popular election was in 1914. Three candidates, Republican Boies Penrose, Democrat A. Mitchell Palmer, and Bull Moose/Washington Gifford Pinchot competed with Penrose winning the first popular election.

Almost every type of campaign item is reflected in this reference. Ribbons, buttons (both celluloid and lithograph), postcards, cardstock handouts, booklets, brochures, metal lapel pins, matchbooks, pamphlets, stickers, posters, blotters, bumper stickers, etc.

## Acknowledgements

A reference work of this scope could not be produced without the assistance of many people.

Over the last forty-five plus years, Carl Krasik assembled what was the gold standard in Pennsylvania political campaign items. This vast collection consisted of campaign ribbons as early as 1835 for the Joseph Ritner inaugural, PA-1, to the Andrew Curtin campaign of 1860 featuring the Abraham Lincoln coattails, PA-26 to PA-37.

In the interest of historical preservations, Carl unselfishly donated this lifelong collection to the Senator John Heinz History Center in Pittsburgh, Pennsylvania. Many of the early gubernatorial coattail ribbons images in this reference are courtesy of the Heinz History Center. Most of these early ribbons rarely come on the market today and to assemble a collection of this depth would be a challenge in today's environment.

A special thank you goes to Carrie Hadley, Collections Associate with the Heinz History Center. She was instrumental in securing the high-quality images of the early campaign ribbons for this reference. A separate photo credit page is included denoting these early ribbons.

As a former Pennsylvania State House Representative, Fred Noye is also a lifetime collector of Pennsylvania political campaign items. I was fortunate to obtain most of the ephemera in this reference from his collection. Without this material, this project would not be graphically or historically complete. He is to be thanked for his years of collecting this material and making it available for this reference.

Other Pennsylvania collectors contributing to this reference were Norm Eavenson, Steve Russell, and Pat Glaser. All are avid Pennsylvania collectors and added greatly to this reference.

This is the third state publication in this series, with Illinois and Texas having been published earlier. Helping me navigate the publishing world have been two Texas sisters, Sarah O'Pella and Mary White. They have been with me from the beginning, with Sarah's computer skills formatting all the pages and sending the completed book to the printer. Mary is the artist and designed the front and back covers as well as some of the layout. It has been a real treat working with both of them and a special thanks for all their input.

This book would not have been possible to publish without the assistance of the Frisco Public Library and their printing group, the Trail Blazer Press. Adam Lamprecht, senior librarian, and Amy Gideon with the Trail Blazer Press group were a pleasure to work with to bring all these books to their final publication.

The following images are courtesy of the Senator John Heinz History Center in Pittsburgh, Pennsylvania:

PA-1 to PA-26 PA-30 to PA-36 PA-38 to PA-50

These items were also in the Carl Krasik political items collection prior to being donated to the Senator John Heinz History Center.

David Quintin is a lifetime collector of political campaign memorabilia. His focus for the last forty-five years has been political items used in the campaigns for United States Senators and governors for all fifty states.

He is a member of the American Political Items Collectors, APIC, and currently the Locals editor of the organization's publication, *The Keynoter*.

Information for the APIC is available on the organization's website at APIC.US. David Quintin can be reached at DQTEXAS@AOL.COM
