## Governors

## U.S. Senators

## U.S. Congressman

*Compiled by David C. Wilson, APIC #4013*

*Initial Version July 2026*

## Introduction

This is a listing of campaign pins, buttons, ribbons, and other items used by candidates for Washington State Governor, U. S. Senator, and U. S. Congressman. It is a replacement for the original Washington Locals Guide which only listed Governor and Senate items with some Congressional items shown on some of the candidates that ran for Governor or Senator. It was last updated in 1997.

This compilation is new and is compiled by David Wilson (APIC #4013). He is a long-time pinback button collector, especially of Washington State items. He collects many different areas such as Presidential, Locals, Cause, Advertising, and Union to name a few. His collection has over 150,000 different buttons.

Most of the items pictured are from the collection of David Wilson. Any picture not noted with a source is from his collection. Other items are noted with the source's name.

Items are listed alphabetically by candidate's last name. All items for a person are grouped together. The Washington Secretary of State's Election Website was accessed to get election results. Wikipedia was also used along with the Washington State Historical Society's research website. There are a few buttons from candidates that are not listed by the Washington Secretary of State as having run for office. These are from candidates who thought of running but did not file the paperwork or withdrew before the ballots were printed.

This document is a work in progress and will be updated periodically with other Washington items not pictured here as they are identified. If you have something from a Washington Governor, U.S. Senate, or U. S. House of Representative candidate that is not pictured please contact the author at [cadawilson@comcast.net](mailto:cadawilson@comcast.net)

I have only shown candidates with known items. I have not included a listing of all candidates. There are several sources for this information such as the Washington State Secretary of State Elections website, Wikipedia, Politics1 and the Congressional Quarterly to name a few.

Each candidate with items has a section with their name, office(s) they campaigned for, party affiliation, and the years they ran and results. Possible results are Won if they won the General Election, Lost if they lost the General Election, and Lost Primary if they lost in the primary. Some candidates withdrew before the election or ran a trial balloon

campaign and those are noted. Items are listed with a description that includes an ID number, the size, and what type of construction. Possible constructions are Cello for celluloid style buttons, litho for lithographed buttons and plastic, metal and ceramic.

Some items may not have a picture. A placeholder is used while I try to obtain a photo. Likewise “Size” and “Type” are used when I don’t know the size or type of construction of an item.

Special thanks to David Quintin, David Stelzer, John Hughes and Carl Wolfsohn for sharing their collections with me so I could get color images of some items I don’t have in my collection. They also helped with some identifications. Thanks also to Cary Jung for allowing me to picture some Washington Obama coattails that I did not have. I would also like to thank the Washington State Historical Society for allowing me to reproduce photos of some items that they have. Those are noted with “Photo courtesy of Washington State Historical Society at WashingtonHistory.org for item xxxx.xx.xxx” where xxxx.xx.xxx is their catalog number.

Work is under way on a companion publication - Washington State Paper Item Project Governors, U.S. Senators, and U.S. Congressman – with a slated initial release in the 4<sup>th</sup> quarter of 2026.

All contents are Copyright 2026 David C. Wilson except those photos noted as from someone else or another organization. Those photos are copyright of those people or organizations and are used with permission.
